

To Remove Drawer

Pull the drawer fully open so levers are visible.

Push “down” on the right lever(shown), and “up” on the left lever.

Holding levers in place, pull drawer toward you.

To Reinsert Drawer

Bring ball retainer fully forward and carefully reinsert drawer member slide into the cabinet member slide, guiding the drawer member raceway between the ball bearings.

Completely close drawer.

Open and close drawer to ensure the slide is fully engaged into the ball bearing track.
