

HOW J-CLIPS  
ARE USED

GENERIC  
MIRROR  
CLIP

ACTUAL MIRROR CLIPS  
SENT BY COLLINS

Mirrors are provided with mirror clips and wood screws. Attach one mirror clip at each corner approximately 2" in from the vertical edge. Two different sizes of screws are provided:  $\frac{3}{4}$ " screws for attaching the mirror to wood cabinet components and 1" screws for going through gypsum board into a wood framed stud wall. Fasteners for attaching mirrors to other wall types are to be provided by the installer.
